Software Engineering student (GPA 3.7, Dean's List every semester) at Sunway University × Lancaster University with production internship experience shipping 4 systems across 10+ departments. Builds AI-powered full-stack applications, Telegram bots, and automation pipelines in Python, Node.js, and LLM APIs.

EXPERIENCE

Software Engineering Intern · Galanz Bottlers · Kazakhstan

Oct – Dec 2023

- Engineered an automated birthday card pipeline (Python, PIL, SMTP) dispatching personalized cards to 10+ departments daily — eliminating 30+ min/day of HR manual effort; 30+ cards sent unattended
- Built an Employee Info Telegram Bot reducing record lookup time from minutes to seconds, and an IT Helpdesk Bot enabling company-wide remote ticket submission
- Deployed a self-service HR website consolidating policies for all departments, cutting repetitive HR enquiries

Freelance Full-Stack Developer · Independent · Kazakhstan

2023 – 2024

- Designed, developed, and delivered 3+ client websites with AI-integrated features end-to-end — from requirements to deployment — with zero escalations

PROJECTS

AI Growth Coach Platform · Node.js · PHP · MySQL · Razorpay · Claude API

- Built a full-stack SaaS platform for goal/habit/task tracking; AI coach analyses failed goals and auto-generates personalized recovery roadmaps — grew from 10 to 100+ active users with live Razorpay subscriptions

AI-Powered Expense Tracker Bot · Python · Telegram API · Claude API · MySQL

- Telegram bot using Claude AI to record and categorize expenses across 9 categories with per-user accounts; generates custom-range spending reports via natural language

Discord Member Verifier · Python · Discord API · Google Sheets API

- Automated student verification for Sunway Game Development Club — cross-checks Discord ID against Sheets registry and auto-grants roles; verified 50+ members with zero manual intervention

TECHNICAL SKILLS

Languages: Python, JavaScript (Node.js), TypeScript, PHP, C# (.NET), HTML/CSS, SQL

AI & APIs: Claude API, LLM Integration, Telegram Bot API, Discord API, Google Sheets API, Razorpay API

Backend / DB: Flask, Node.js, REST APIs, MySQL, PostgreSQL, SQLite

Tools: Git, GitHub, Linux, SMTP, PIL/Pillow

EDUCATION

Bachelor of Software Engineering (Hons)

Sep 2024 – Aug 2027

Sunway University × Lancaster University · Dual Degree · Kuala Lumpur, Malaysia

GPA: 3.7 / 4.0 · Dean's List — Every Semester
