SUMMARY

First-year Software Engineering student at Sunway University × Lancaster University (GPA 3.7, Dean's List every semester) with internship experience and a portfolio of AI-powered and automation systems built with Python, Node.js, and Claude AI. Comfortable across the full stack — from Telegram bots and REST APIs to web platforms with payment integration. Seeking a software engineering or AI/ML internship to solve real problems and grow fast.

EXPERIENCE

Software Engineering Intern

Oct 2023 – Dec 2023

Galanz Bottlers · Kazakhstan

- Delivered 4 software projects during the internship, including a fully automated birthday card generation and email distribution system deployed across company departments
- Built the system using Python, Flask, PIL, REST API, and SMTP, automating a previously manual process end-to-end

Freelance Web Developer

2023 – 2024

Independent · Kazakhstan

- Designed and delivered custom websites for clients with AI-integrated features, working independently from requirement gathering through to deployment

PROJECTS

AI-Powered Expense Tracker Bot · [GitHub](#)

Python · Telegram API · Anthropic Claude API · MySQL

- Built a Telegram bot that uses Claude AI to automatically record and categorize user expenses (food, utilities, etc.) and generate detailed spending reports for any custom date range

AI Growth Coach Platform · [Live Demo](#)

Node.js · PHP · HTML/CSS · MySQL · Razorpay API

- Developed a full-stack web platform where users track personal goals, habits, and daily reflections, guided by an AI coach; integrated Razorpay to handle subscription payments

Discord Member Verifier · [GitHub](#)

Python · Google Sheets API · Discord Bot

- Automated student verification for Sunway Game Development Club's Discord server using Google Sheets as a live member registry, eliminating manual verification entirely

Automated Birthday Card Sender · [GitHub](#)

Python · Flask · REST API · SMTP · PIL

- Built a system for companies to auto-generate personalized birthday card images and distribute them via email to all departments; deployed during internship at Galanz Bottlers
